

USELESS LAWS SCORED BY KING

Needless legislation and the cluttering of the statute books with thousands of laws which serve no good purpose came under condemnation by Senator William H. King of Utah at noon today in a stirring address before members of the Progressive club of Ogden.

"Too often," said the senator, "we Americans are opportunists. We are caught and swayed by some mysterious politician in the clamor of the moment and often petitions are sent to our senators which, if placed in force would be destructive to the government."

"In the past 10 years there have been mountains of bills introduced. 25,000 or more, which have clogged our channels of legislation. The people do not know or do not realize what these laws and regulations are until they run up against the obnoxious ones. The people seem to be losing themselves to that 'mollycoddle' spirit, so often censured by our late Theodore Roosevelt, many of his principles to which I subscribe."

"I believe that in mountainous statutes for they do not mean growth or progress. Progress is a plan of slow growth and you cannot by improper laws change human nature and convert human beings into entirely new personalities. Slow, but sure growth is obtained through appeal to humanity and not through statutes."

LIMIT DANCES AT OGDEN HIGH

The crowded conditions at the Ogden senior high school may result in the discontinuance of school dances during the school year, according to an announcement made today by Superintendent W. Karl Hopkins. This matter will be voted on at the meeting of the board of education Friday evening.

"Owing to the crowded conditions at the senior high school, where between 1,000 and 1,100 are now registered, it seemed advisable to the board of education to curtail dancing parties at the school during the school year," said Supt. W. Karl Hopkins today, when asked if the board had banned dances at the high school.

"We have no room at the high school large enough to accommodate the students in a dancing party," said Supt. Hopkins, "and so the board favors fewer dances, inasmuch as it will be necessary to hold these dances, probably at the Berthana, until a room large enough to hold the pupils can be obtained by the board. In fact, the board recommended to Principal A. M. Merrill of the Ogden high school that not more than one dancing party per month be given by the senior high school in some hall downtown, similar to the Berthana."

SCHOOL HEADS HOLD MEETINGS

A series of meetings for the principals and supervisors of the Ogden city schools, in the form of luncheons, have been sanctioned by Supt. W. Karl Hopkins. The first of a series of these meetings was held at the Weber club today.

With reference to these meetings Supt. Hopkins said:

"When Master Garff Wilson gave a 10-minute talk before the Ogden city teachers September 7, on 'Ogden,' he surprised everybody by the breadth of his knowledge of local conditions."

"The enthusiastic manner in which he portrayed Ogden's present opportunities and probable future development was a revelation to the new teachers in the schools."

"That all may become better acquainted with the home city, a series of principals' meetings in the form of business luncheons, will be conducted. These meetings are to be held twice a month at the Weber club, where leading business men will acquaint the principals and supervisors with Ogden's leading industries."

"We want to know more about the history of Ogden, its rank in industry, art, civic progress, principal products, its trade territory, its source of fuel and power, its form of government and its probable future development."

"I am firmly of the opinion that not enough attention has been given in the schools to local situations and conditions. Our new aim is to so emphasize Ogden that every boy and girl who graduates from our public schools will become an enthusiastic, intelligent and efficient booster of our city."

"The principals are now at work assembling material which will include reliable information concerning Ogden's history, its educational, industrial, commercial, civic, religious and social status, as well as a concept of the probable growth of the city along the lines sponsored by the local chamber of commerce."

"Ogden as a meat packing center" was the subject discussed at today's luncheon by James Brennan, general manager of the Ogden Packing & Provision company. The supervisors and principals were invited to visit the Ogden packing plant by Mr. Brennan."

WOMEN INSIST ON CLEAN MILK

Women representing the Civic league called upon Mayor Frank Francis this morning and reported that reports had come to them from women in all parts of Ogden that milk now sold here in many instances had been found dirty and vile and they demanded that the city commission take immediate steps to be taken to correct this alleged condition.

The women favor milk pasteurization and they also urged that steps be taken toward more rigid inspection of sanitary conditions. The women brought up the matter of the epidemic of typhoid in Roy, where 10 cases have been reported and sought to determine whether the disease had been spread through milk. It was explained that samples of milk had been taken and sent to the state board of health for analysis, but no report had been received. City health inspectors also said that the milk supply there had been stopped until the tests are completed.

The women declared that the majority of milk consumers of the city favored pasteurization and within a short time they would have 500 women of the city demanding the pasteurization of milk. Those who were members of the committee were Mrs. Mattson, Mrs. Sidney O. Stevens, Mrs. D. C. Elder and Mrs. George W. Perkins.

Assembly is to be held tomorrow at the O. H. S. The students will be honored by an address by Senator Reed Smoot. Songs will be sung by the Glee club and selections played by the orchestra.

The Forum or Boys' Debating club, held a meeting at the O. H. S. at 7:30 last night. The tariff question was discussed by several of the old members, as the Fordney-McCumber bill is the subject that the club intends to work upon. A trial debate between Elmer Burke and Grant Chandler upon the subject of compulsory student body tickets was given. Elmer Burke, who debated the affirmative side, was adjudged the winner. Both sides then made full fledged members of the Forum.

Trial debates are to be given next Monday upon the subject, "Resolved, That the U. S. government should own and operate all railroads," by four prospective members, Clyde Harris, Earl Murray, Mac Boyd and Dilworth Sandberg. With these four members the club membership unit, which is in its infancy, is growing. The members are all taking an active part and they are ready to challenge the Girls' Debating club for a debate whenever it is organized.

Student council meeting was held this afternoon at 3:30.

A T. N. T. club meeting will be held Thursday, at which plans for the coming year are to be discussed and the club will get ready for action.

SALT LAKE PASTOR TALKS AT U. A. C.

LOGAN, Oct. 10.—The world demands of every man that he be good for something. Such was the message conveyed by the Rev. Stanley A. Curtis of Salt Lake, to the members of the student body and the faculty of the Utah Agricultural college in the regular weekly chapel exercises Monday.

"To be good for something a man must first have character, for without character, he is less than a man," declared the Rev. Curtis. As character is one of the most essential elements of success, it should have first attention in the education of the child. The best that is in him must be drawn out. This is the fundamental duty of education—to draw out the gift of God which is in us."
